

## INVITATION

---

**Hotel InterContinental 5. September, 2013**

The American Chamber of Commerce and the Innermetrix Hungary KFT.  
would like to invite you to the Business Seminar&Cocktail Party

**"The power of engagement on results and revenue"**

on September 5, 2013 at Hotel InterContinental from 4pm to 7pm.

The aim of this exclusive business seminar is to show to the participants  
how to create a healthy organization of engaged and productive employees.

### **Topic**

#### **The power of engagement on results and revenue**

We can never be sure about the future... Such a short time after the worldwide crisis that came so suddenly and unexpected leadership must be aware of threats that could harm internally the value system of their companies. But which values are we talking exactly about? Is it the value of the company or the values of its people? Current discussions with CEO's show that the motivation and the bias for action of their people is decreasing. Proactivity is missing because of the fear of making errors and also there are so many hidden agendas behind of the walls. People do not lead an open communication, because they don't have trust in sharing information with others.

## Speakers

**Jay Niblick**, best seller author and as one of the Top business coaches in the US will be visiting Hungary for the first time. He will give an exciting overview on international experiences about the possible sources of above mentioned problems and show solutions both at the individual and at the organizational level to this challenges.

**Peter Maximilian Malcsiner**, internationally working ICF(UK) certified executive trainer and coach on the basis of Axiology and as of member of the US based Hartman Institute will present the Hartman Value Profile, which is one of the most researched value measurement system in the world and gives us answers to basic questions about talents, external and internal values of individuals.

## Innermetrix (IMX)

Innermetrix Hungary KFT. started its operations in 2011 in Hungary and in Germany as an independent partner organization of the Innermetrix Inc., which has been founded by Jay Niblick for 14 years ago in the US. Innermetrix became rapidly one of the worldwide key players in Personality profiling, Peak performance management and Change management. Being present in 26 countries on 5 continents IMX Certified Consultants focus on consulting, professional coaching and executive training for multinational large and small and medium sized enterprises.
